Palliative Care Team available:

7 days a week 8am – 10pm

Overnight support available with prior arrangement

We are a team of Health Care Assistants who have undertaken additional training in caring for patients with advanced illness in their home environment.

The Team

We are always happy to help, offer a friendly face or a chat, and refer on to other services who may be able to offer support. We liaise closely with our team of specialist nurses and therapists and with other health professionals such as GPs or District Nurses.

How can we help?

We deliver 'hands-on' personal care to a person in the last few weeks of their life.

Where possible, we will try to arrange occasional overnight sits in order to give you a much-needed break. We aim to give you and your family

time to talk and offer practical and emotional support through what may be a very difficult and challenging time.

We work closely with trained nursing, medical and therapy staff also involved in your care.
