Dear Dr. Prof Satyajit Das,

I am pleased to inform you that your article entitled "Effect of Low Dose Oral Vitamin D on Bone Mineral Density Changes in HIV Patients" has been accepted for publication in "Infectious Disorders - Drug Targets" after independent peer review.

We recommend you to publish your Animated Abstract, along with the article abstract, to extend the coverage of your article. Bentham Science has collaborated with Focus Medica, one of the world's largest publishers of expert animated atlases and videos in medicine and science, to create an Animated Abstract of your article. Animated Abstract will be published as open access (free-to-view) and help summarise the essential discoveries/key findings of your research, highlight the importance of the article for further research and utilization in the relevant industry. Each professionally produced, full-coloured animated abstract, in video format (length 3 â€“ 5 minutes) is accompanied by an english or foreign language commentary. You can avail this service against a fee to get the Animated Abstract published with your textual / graphical abstract on the Journal's homepage (for reference, please visit: http://www.eurekaselect.com/video.html).

We are eager to share with you all the research articles published in Bentham Science journals that are relevant to your field of interest. For future article alerts, we request you to provide keywords and fields of your choice. Please e-mail your selections for future article alerts to Mr. F. Haq, Manager Marketing: faizan@benthamscience.net.

Bentham Science strives to promote your article to a huge audience relevant to your research, using a variety of Marketing tools and platforms. For a detailed view of all the promotional activities please visit the author's benefits section on our website.

We wish to thank you for submission of the manuscript to Infectious Disorders - Drug Targets and look forward to continued collaboration in future.

With warm regards,

Editorial Office
Infectious Disorders - Drug Targets
Bentham Science Publisher
